### Student's opinion :

"I think it's cool that I attend the ESS!  
[...] I've already met children from  
different countries at the ESS. It's  
exciting to discover different cultures  
and languages and we learn from  
each other."

### Our goals and values

From Year 1 onwards, we place a strong  
focus on multilingualism and the  
development of intercultural skills. After 12  
years, students can obtain the European  
Baccalaureate. We support European values  
such as democracy, tolerance and peaceful  
coexistence. Our aim is to give our pupils  
confidence in their own cultural identity and  
at the same time open their hearts to the  
diversity of Europe.

### About us

We are a young school community  
that offers our students a high-quality  
international education.

As part of the European Schools  
Network, we are characterized by  
commitment, modern and digital  
education and a spirit of innovation.

### Parents' opinion:

"The ESS is not just a school, but rather  
a community in which individuality has  
space and identification with Europe  
(and the world beyond) is conveyed.  
Teaching puts a focus on  
interculturality."
